About Me!!!

The Copper Cacti came to be in 2019. I had spent a couple of weeks making terrariums when my husband told me I couldn't keep them all (rude, I know!) So naturally, as I didn't want to stop making them... I started attending craft markets selling my wares. Following this I started being asked to be involved in pop up shops and large events such as Gardeners World.

Then, I received an email that changed the projection of the business. A couple had seen my geometric terrariums in a local pop up shop and asked if I could do them as centrepieces for their wedding. From there, that was it. All I wanted to do was create beautiful, unique and quirky pieces for couples wanting something different for their day.

The Copper Cacti is an incredibly important part of who I am as a plant enthusiast who wants to make beautiful & unique floral designs with that unique spin for the unconventional wedding couple.

I want to offer you the unique, the whimsical, the fun and quirky elements to bring your personality into your special day, and keep your guests talking for years on end about how they have never seen anything like it before!

Don't Take My Word For It!

"Chloe is incredible and we would honestly, and wholeheartedly recommend her and The Copper Cacti to anyone. We met Chloë at a wedding fair, and clicked from that moment on. She took the time to get to know us both, as well as our vision for our wedding day.

Chloë communicated with us throughout the whole wedding process, offering advice and reassurance on every aspect of wedding planning, and was the ultimate hype girl! The floral design was incredible, and the succulents and foliage used was absolutely beautiful. All my wedding guests commented on my GIANT bouquet, and the ability to offer sustainable centrepieces to our family as gifts was just an added special element of everything she offers. We honestly could not have asked for a better floral designer, and Chloe was a huge part in giving us the wedding of our dreams. Chloë now feels like a friend, and we would recommend her to anyone considering alternative floral design for their wedding day"

Becky & Jai, 21/07/2023

"I highly recommend The Copper Cacti! Chloe was absolutely amazing. From the moment we first started speaking she understood exactly what we wanted for our wedding. Her creations were really beautiful and complemented our style perfectly. All the flowers were fresh, vibrant and gorgeous. She kept us updated each step of the way and we just felt we were in good hands. Thank you for helping make our wedding day so special."

Ella & Steve, 29/06/2023

"Chloe was an absolute pleasure to work with from start to finish! She really got on board with our vision for our wedding and produced the dreamiest bouquets and buttonholes.

Couldn't recommend both the products and the service any more, thank you so much!"

Kirsty & Andy, 23/07/22

"Honestly, I couldn't have imagined anything quite as beautiful as what you achieved for us. My Mum would have loved what you did and it was literally the best tribute to her.

Thank you so much. The passion you have for what you do is so apparent.

Your energy and enthusiasm in the planning was simply incredible, and it really came through in what you delivered. Just WOW. Laura loved everything and is so grateful for all the support you have in the run up to the day"

Rich & Laura, 05/08/23

"Chloe was the most amazing florist and we wouldn't change a thing. We were lucky enough to have bouquets, button holes, courage and cake toppers that were completely made for us and our Day.

As a bride, I knew I loved and wanted succulents with some foliage and smaller flowers but we left the rest to her and she didn't disappoint. Chloe really listened and went above and beyond in making our everything she made. It was all so unique and bespoke, we had tons of compliments and I haven't stopped recommending her to others ever since first meeting and seeing her work.

Whilst waiting for our special day we got sneak peak photos as the succulents arrived which made the wait even more exciting and we couldn't wait to see what she had made us. Chloe went above and beyond even creating a throwable bouquet as we all knew I wouldn't be throwing my real bouquet, she made it a stress free experience from discussing what we would like, accommodating last minute changes and dropping everything of on the day.

Our favourite extra is that you can replant and keep them forever after, yes you can dry out your bouquets but being able to have them continue to grow and last forever is so different.

Thank you so much we couldn't be happier"

Once you have decided that I am the right floral designer for you, it couldn't be an easier journey to that aisle!

1. Quotation Meeting - This can either be done via zoom or phone call, where I write down EVERYTHING I need to know to give you as accurate quote as possible. This just allows me to work out a deposit and generally what we are planning, however it's fully flexible!

You want to add something on? No problem!

Want to swap something around? Absolutely! Don't feel like this is a signed, sealed and delivered deal!

2. Deposit - A non-refundable deposit reserves your date and means you are all booked in! No deposit sadly means I cannot hold your date. Once received you will receive confirmation that you are all booked!

3. WhatsApp Chat - I am a SUCKER for a good WhatsApp chat where we can share ideas, pictures, quickly answer your queries etc. I am a super visual person so having everything in one space which I can refer to helps so much!!!!

4. Planning Meeting - 8 weeks before your wedding when final payment is due, we can either meet for a coffee or have a chat via zoom to finalise all the finer details! I will bring up pictures and mood boards to ensure we are all on the same page.

5. Relax! It's the day!!!! - On the day I will turn up, work my magic and leave you with some of the most incredible florals you have ever seen.

That is my promise to you!

Why The Copper Floral Cacti for my Design?

It's a very valid question, and one you should absolutely be asking to ensure you find the right floral designer for your day.

These are my top 3 reasons of why I may be the right person for you.

1. Passion - my god I love what I do! There is nothing like it. I have mud under my nails constantly from creating special pieces and it truly brings me so much joy!
2. Quality - I know how important your wedding day is, and so you will never get sub-par quality from me. I source succulents, cacti, airplants and houseplants from suppliers I have used for years and have amazing relationships with, while I also grow alot of my own. The two days before your wedding is fully blocked out in my calendar so I can slowly create your pieces. Rushing isn't the answer here for something so important!
3. Uniqueness - I know I harp on about being different and unique, but that is what makes me different and unique! I don't want to be the same as everyone else. I want to offer you things you may never of considered for a wedding before and make your day stand out!
