# About Lil' Old ME!

The Copper Cacti came to be in 2019. I had spent a couple of weeks making terrariums when my husband told me I couldn't keep them all (rude, I know!) So naturally, as I didn't want to stop making them... I started attending craft markets selling my wares. Following this I started being asked to be involved in pop up shops and large events such as Gardeners World.

Then, I received an email that changed the projection of the business. A couple had seen my geometric terrariums in a local pop up shop and asked if I could do them as centrepieces for their wedding.

From there, that was it. All I wanted to do was create beautiful, unique and quirky pieces for couples wanting something different for their day.

The Copper Cacti is an incredibly important part of who I am as a plant enthusiast who wants to make beautiful and unique floral designs with that unique spin for the unconventional wedding couple.

I want to offer you the unique, the whimsical, the fun and quirky elements to bring your personality into your special day, and keep your guests talking for years on end about how they have never seen anything like it before!

# But Don't Take MY WORD FOR IT...

## Nicole & Sid

"Simply the best! Me and my husband didn't even know where to start when it came to flowers for our wedding, then we met Chloe at a wedding fair.

Chloe is an absolute dream of a supplier, works with you to help you choose what you want when you have no idea! On the big day the flowers/succulents were in the most perfect condition, she helped me choose and made a hair accessory which was perfect!

I had soooo many compliments on the bouquets/corsages/button holes as well as the display Chloe made for us on the pontoon! Honestly if you do anything pick Chloe to do your wedding you won't regret it!

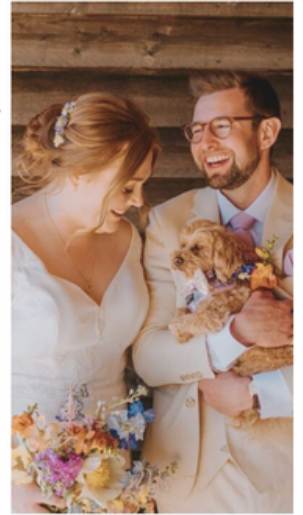

Thank you so much Chloe 🌿💖💖💖"

## Emily & Andy

"Chloe is amazing!!! She was one of the recommended suppliers at our venue and was the only florist we spoke to because as soon as we had a call with her, we knew that she was great vibes! We told her what we were thinking and would send inspo pics on WhatsApp but what she ended up creating for us was even better than we hoped. For people that have 0 knowledge on flowers, she made us feel at ease and was just a joy to work with! and to work with an outrageously creative women - she is the one!"

## Daniel and George

"As soon as we met Chloe we knew that we'd found the one and that it was going to be the start of a beautiful friendship and a very important part of our big day. We knew we wanted something special and unique for our wedding aside from conventional blooms and Chloe immediately shared our vision. Her expert advice (and sharing our crazy dreams) made the planning process so much fun and was a delight each time we spoke. No idea was too big or too small and tailored each ask to how we wanted it and made it all come to life so perfectly on the day. Every little detail was truly gorgeous and all of our guests commented on how stunning the venue looks through the bespoke succulent features and accessories.

We cannot rate The Copper Cacti highly enough to anyone who wants to add a real touch of personal magic to their wedding day, and have the most brilliant laugh along the way too. There is something so wonderful about a wedding display outside of the standard, and the fact we've been able to keep so much of our foliage and succulents afterwards makes the love last longer.

Thank you for your talent, and thank you for being you!"

## Faye & Lee

"Chloe,

What can I say? Two years ago I met you at a wedding fair and just knew you had to do mine and my bridesmaids bouquets. Then I added hair pieces and buttonholes because I just couldn't get enough! We spent time talking about the details & nothing was ever too much for you. You understood where I was coming from - even when I said I needed disco balls in the bouquets because I LOVE a disco ball. Most people would've thought I was mad but not you!

Fast forward to the weekend when you delivered the bouquets and I JUST CANNOT EVEN! They were everything I could've dreamed of and more and the amount of compliments that my guests kept coming to me with because they were not only bloody gorgeous but completely unique. You even added a tiny frame of my dad who passed away 11 years ago so that he could walk with me down the aisle.

Babe - I WILL NEVER be able to thank you enough for bringing the Copper Cacti Colour party to our wedding and for being part of my bride tribe!

# So, how do I WORK?

Once you have decided that I am the right floral designer for you, it couldn't be an easier journey to that aisle!

1. Quotation Meeting – This can either be done via zoom or phone call, where I write down **EVERYTHING** I need to know to give you as accurate quote as possible. This just allows me to work out a deposit and generally what we are planning, however it's fully flexible!

You want to add something on? No problem!  
Want to swap something around? Absolutely!  
Don't feel like this is a signed, sealed and delivered deal!

2. Deposit – A non-refundable Deposit reserves your date and means you are all booked in! No deposit sadly means I cannot hold your date. Once received you will receive confirmation that you are all booked!

3. WhatsApp Chat – I am a **SUCKER** for a good WhatsApp chat where we can share ideas, pictures, quickly answer your queries etc. I am a super visual person so having everything in one space which I can refer to helps so much!!!!

4. Planning Meeting – 8 weeks before your wedding when final payment is due, we can either meet for a coffee or have a chat via zoom to finalise all the finer details! I will bring up pictures and mood boards to ensure we are all on the same page.

5. Relax! It's the day!!!! – On the day I will turn up, work my magic and leave you with some of the most incredible florals you have ever seen.

That is my promise to you!

# But why should YOU CHOOSE ME?

It's a very valid question, and one you should absolutely be asking to ensure you find the right floral designer for your day.

These are my top 3 reasons of why I may be the right person for you!

1. Passion - my god I love what I do! There is nothing like it. I have mud under my nails constantly from creating special pieces and it truly brings me so much joy!
2. Quality - I know how important your wedding day is, and so you will never get sub-par quality from me. I source succulents, cacti, airplants and houseplants from suppliers I have used for years and have amazing relationships with, while I also grow a lot of my own. The two days before your wedding is fully blocked out in my calendar so I can slowly create your pieces. Rushing isn't the answer here for something so important!
3. Uniqueness - I know I harp on about being different and unique, but that is what makes me different and unique! I don't want to be the same as everyone else. I want to offer you things you may never have considered for a wedding before and make your day stand out!

# Guide Prices

## 2026 TO 2027

The prices listed over the next few pages are to be used as a guide only.

This is due to varying factors such as flowers/plants, seasonality, quantity and size.

Prices are also subject to increase depending on the requirements of the displays, and weddings beyond 2027 are also subject to an increase in line with inflation.

At The Copper Cacti, my prices are design led, so the complexity of the design can also factor into the price, however I believe I am competitive with the current market, and I truly put my heart and soul into all my designs.

Please also note I have a current minimum spend in place of £1000.

A full list of my terms and conditions will be provided at quotation.
